Breeder Referral Service:

One of the benefits of being a member of the Breeders Consortium is that we can post your information on our website so that people looking to adopt a puppy can be directed to you.

This is a service to be provided ONLY to our current active members of our Breeders Consortium.
We are only serving as a conduit between the breeder and buyer. We are in no way endorsing either the breeder or buyer.

We only want to give out the information you feel comfortable sharing!
What information would you like displayed on our website?

Breeder's Name(s) _____

Kennel Name _____

Breed(s) _____

Phone _____

Website _____

Email _____

If you would like you could also include a short (less than 100 words) narrative describing your breeding philosophy, health screening, experience, how your litters are raised, etc. This is only an introduction, the prospective buyer can find out more through your website and personal communications with you. Please do not include any information on current litters, as we would prefer the buyer get the most up to date information directly from you!
